In the world of biocentrism, a “brainless” observer does not merely fail to experience time—without a conscious observer, time has no existence in any sense. You will never look at science the same way again. But this book is not merely an arrow targeted at the shocking revelations in the final chapters.

The things with which we concern ourselves in science appear in myriad forms, and with a multitude of attributes. For example, if we stand on the shore and look at the sea, we see the water, the waves breaking, the foam, the sloshing motion of the water, the sound, the air, the winds and the clouds, the sun and the blue sky, and light; there is sand and there are rocks of various
