Handbook Of Freshwater Fishery Biology

Main producer countries of *Scylla serrata* (FAO Fishery Statistics, 2006) Habitat and biology Indo-Pacific swamp and mud crabs are found in the Indo-West Pacific region from East and South Africa to southeast and east Asia (from SE of China and Sri Lanka), and Northeast Australia.

FAO Fisheries & Aquaculture *Scylla serrata*

The common thresher (*Alopias vulpinus*), also known as Atlantic thresher, is the largest species of thresher shark, family Alopiidae, reaching some 6 m (20 ft) in length. About half of its length consists of the elongated upper lobe of its caudal fin. With a streamlined body, short pointed snout, and modestly sized eyes, the common thresher resembles (and has often been confused with) the ...
