MPI AST offers complete wafer pad probing solutions based on a variety of engineering probe stations, RF probes from 26 to 110 GHz, and RF calibration software QAlibria®. RF wafer probes convert the electro-magnetic energy travelling along the coaxial cables to the on-wafer DUT and its contact pads. The conversion has to be carried out with minimal distortions and energy loss. MPI ...

Programming with Big Data in R (pbdR) is a series of R packages and an environment for statistical computing with big data by using high-performance statistical computation. The pbdR uses the same programming language as R with S3/S4 classes and methods which is used among statisticians and data miners for developing statistical software. The significant difference between pbdR and R code is ...

Comprehensive Immigration Reform Comprehensive immigration reform, a policy concept that first gained currency in 2001 in the U.S. political world, would marry increased border enforcement with legalization for unauthorized immigrants and the ability to bring in future workers needed by the U.S. labor market. Debated in the U.S. Senate in 2006, 2007, and 2013, comprehensive immigration reform ...
