The term 'infrastructure' can cover a range of services, such as transport, communications, water or waste. This review focuses on energy, in particular the distribution of electricity and heat on a local scale. Distribution is by wires for electricity and pipes for a heat exchange medium, often water.

Infrastructure challenges for the built environment ...

Urbanism is complicit in infra-structural racism, so ongoing reparations must be made in the built environment as well. While the case is still being made for individual and economic reparations, and there is work we can begin to do today to end the structural racism that killed our dear sister, Breonna.

commercial buildings, transportation, communications, energy, water systems, parks, streets, and landscaping) and its importance to how people live, study, recreate, and work in cities.

Built Environment, Urban Systems, and Cities - Fourth ...

The impacts of extreme weather, climate, and other hazardous events are felt particularly acutely in cities and towns. Ensuring the resilience of built environment systems takes collaboration among all interested stakeholders before, during, and after extreme events and disasters. Stressors such as economic inequality and environmental degradation, coupled with deteriorating public infrastructure, can make some communities more vulnerable to extreme weather and climate change than others.

organizational structures for communal use, most commonly by residents of cities and towns. Politicians often think of infrastructure in terms of how a nation can help corporations move and deliver their goods—water, electricity, sewage, and merchandise are all about movement and delivery via infrastructure.

The Importance of Infrastructure - ThoughtCo

The Centre for Digital Built Britain defines the built environment as; 'All forms of buildings (residential, industrial, commercial, hospitals, schools), all economic infrastructure (above and below ground) and the urban space and landscape between and around buildings and infrastructure.' Ref The Gemini Principles, December 2018.
